

Tom Waits, I'm Still Here

You haven't looked at me that way in years
You dreamed me up and left me here
How long was I dreaming for?
What was it you wanted me for?

You haven't looked at me that way in years
Your watch has stopped and the pond is clear
Someone turn the lights back on
I love you till all time is gone

You haven't looked at me that way in years
But I'm still here
