

Tom Waits, In Between Love

In between love, trying to scheme love
Who can tell what we may find
Never thought love, that I'd get caught love
Between the magic in your eyes
Your love's like wind, in it's so cool and breezy
Never thought that love could be so easy

In between love, trying to scheme love
In between love again

In between love, trying to scheme love
Who can tell what we may find
All this time love, I was so blind, love
To the feelings in my mind
Your love's like wind, in it's cool and breezy
Never thought that love could be so easy

In between love, trying to scheme love
In between love again
