Tom Waits, In Between Love

In between love, trying to scheme love Who can tell what we may find Never thought love, that I'd get caught love Between the magic in your eyes Your love's like wind, in it's so cool and breezy Never thought that love could be so easy

In between love, trying to scheme love In between love again

In between love, trying to scheme love Who can tell what we may find All this time love, I was so blind, love To the feelings in my mind Your love's like wind, in it's cool and breezy Never thought that love could be so easy

In between love, trying to scheme love In between love again
