

Tomi Swick, Everything Is Alright

After all of the things we've been through
I think I know enough to say I know you
I see that you want to hear me
I know that you care

Everything is alright
if you want it to be
Everything is alright
with me
So take your time
before you set your mind to make things right

If it's time that you need
I'll give it
And if it's the wine that's my greed
I'll admit it
I see that you want to hear me
I know that you care

Everything is alright
if you want it to be
Everything is alright
with me
So take your time
before you set your mind to make things right
to make things right
to make things right
to make things right

Everything is alright
Everything is alright
Everything is alright
Everything is alright
Everything is alright
Everything is alright
Everything is alright
Everything is alright
