Tommy Bolin, People, People

Brother, brother, help me please, I'm as lonely as I can be. All my friends are scaring me, But if you forget me then I will leave.

Sister, sister, what can I do? I'm in love with tootsie too. Please excuse me if I am low, But me feelings just have to show.

People, people, hold my hand. Where in the hel is this promised land? Float right past me, oh I like your style. Seek it, seek it, seek it, you're here for a while.

Mother, mother, so good to me, Praying just so I can be. My father, my father, my only one, I hope you're proud of this your son.

Listen to them play now....
