## Tommy Lee, Sister Mary

Tommy Lee "Sister Mary" Tommyland: The Ride 2005

Don't be afraid, I'm here for you And the audience departed as I gave her heart away from me I saw the suns expanded view And I thought I heard the answers but I let 'em slip away from me

Sister Mary innocent lost her way She stood up on the table, gave it away Sister Mary innocent all I can say

What's wrong with you is all that's wrong with me

Once those skies, weren't they azure blue? But the papers always seem to have the ugly things to say, we choose Oh Jesus, Jesus, we still love you Just as long as proofs a burden we don't ever have to bear for you

Sister Mary innocent lost her way She stood up on the table, gave it away Sister Mary innocent all I can say What's wrong with you is all that's wrong with me
