

# Tommy Shaw, Half A Mind

You said you were leaving  
On the very next train  
This little town had got you down  
And you wouldn't be back again

Yeah and I believed you  
My world stood still  
You said you had a half a mind  
To let me know the way you feel

When it comes to leaving  
I've done my share  
Trouble would come  
But you'd never find me there

You said you were leaving  
So many times  
And every time I tried to find  
A way I could survive

I felt so lonely  
All the times I cried  
Now you say that I should see  
How everything has changed inside you

When it comes to changing  
I never saw the need  
I never thought about anyone but me

Can't we see the past is gone  
Half a mind from here  
Where the seeds of love can grow  
We'll gather it as we go

We'll never know  
How lucky we are  
Casting our fate  
To the wind and the stars  
And gather the love as we go  
Gather the love as we go  
Gather the love as we go

You said you were leaving  
On the very next train  
Those little things had got you down  
And you wouldn't be coming back again

When it comes to leaving  
I've done my share  
Trouble would come  
But you'd never find me there

Can't we see the past is gone  
Half a mind from here  
Where the seeds of love can grow  
We'll gather it as we go  
Gather the love  
Gather the love  
Gather the love as we go

I believed you  
My world stood still
