

# Tonedeff, Let's Go

(V1)

Aiyyo, let's go, what's poppin, I don't know, I'm out the door  
Just call me. I got my phone  
I'm tryin to get up into whatever possible  
Floss on some hoes that's down to go Rock & Roll  
Lock & load, when the boss is on the road  
I got my whole QN5 squad in tow  
Broads, we're out to scope  
The harder the cock is swole, the farther the tonsils go down her throat  
Stocked with a monster flow & the hottest shows that your spots have known  
With a plot to go cross the globe  
Who wanna toss some dough?  
Cause the odds are low, that you'll watch me strolling up out the zone all alone  
We ain't caught up in the cost of clothes, we just holla at those  
Shawty's with bodies that got a shot at the throne  
While some niggas constantly choke  
People if you don't wanna be home, I advise that you follow with Tone!  
Let's go

(Bridge A)

We gotta make some moves  
Get up and lace ya shoes  
We gonna break the rules down  
Let's go

This is the place to jump  
Move with the bass that pumps  
We fin to raise it up now!  
Let's go

(V2)

Yup he's at it again, the cat with the pen and the Latin descent  
An immaculate grin  
And a ravenous flow you can't control or paddle against  
After your chick she said she was a fan of my shit, I've been tappin' it since  
Oh. yeah, can spit.that's what I meant  
Back to the script that I planned, man - just got distracted a bit  
And I can't envision which talent to ditch  
It's like, imagine a chick having to pick between her snatch, face, ass and her tits  
Now I ain't tragically hip, and I'm proud of it  
Son, I'm a natural at this, I don't reenact for an audience  
Or party with them wack hoes hollerin  
Girl, if that's your milkshake, I'm lactose intolerant  
(Ahhh!) Don't be getting defensive  
Just call me the gamecock, cause when you beat it on hard you get the special ending  
And there's no quarter required for that  
Just hit start! Now, Ladies and gentleman tighten your caps  
Let's go

(Chorus)

Ain't no time for y'all to halt or stop or stall  
We good as long as y'all bouncing off them walls  
And we ain't gonna stop, so we don't need no brakes  
So, if you want it, get on it.we roll till the wheels come off  
Let's go, let's go, let's go

(Bridge B)

Enough of the day to day  
Cause you deserve a break  
Put all the work away  
Y'all let's go!

Now is time to roll  
If you been riding slow

Get on the grind and go  
Y'all let's go!
