

Tones On Tail, There's Only One

You want two
He wants three
They want four
There's only one
There's only one

Coloured flies and Cadillacs
Ninety-nines or soft hatchbacks
Take only one
Take only one

Black or white
Right or wrong
Up two flights
And still as strong
There's only one
There's only one

Up and down and up, up, up
Freeze-frame smash then rip it up
There's only one
There's only one

Sixteen bars and greasy spoons
Big blue budgies and popcorn tunes
Take only one
There's only one
