

# Toni Braxton, Always

I know that you feel like leavin'  
We can't seem to get along  
I know you are the only one for me  
My everything  
You are all that a girl could wish for  
I couldn't ask for more  
We don't need to argue about silly things  
Anymore

Remember all of the good times  
Think about it for awhile  
I would be incomplete without you in my life

Tell me  
You can't leave  
You will always be a part of me, baby  
Wherever you go  
You will always be a part of me  
Always

Sometimes we say things we don't mean  
Like we should go our separate ways  
Not considering the love and time that we shared together  
I be feeling like you're really afraid  
To love me as I love you  
Let me live inside of your love freely, yeah

Remember all of the good times  
Think about it for awhile  
I would be incomplete without you in my life

Tell me  
You can't leave  
You will always be a part of me, baby  
Wherever you go  
You will always be a part of me  
Always

Tell me  
You can't leave  
You will always be a part of me, baby  
Wherever you go  
You will always be a part of me  
Always

At night I wish upon a star  
And hope that you are near, not far  
And that you are loving me  
Always  
And when I lay me down to sleep  
I pray that our love will always keep  
And that you are loving me, yeah  
Don't ever let me go, oh babe  
Always  
Without you there is no me  
What am I suppose to do, tell me

Tell me  
You can't leave  
You will always be a part of me, baby  
Wherever you go  
You will always be a part of me  
Always

Tell me  
You can't leave  
You will always be a part of me, baby  
Wherever you go  
You will always be a part of me  
Always

Tell me  
You can't leave  
You will always be a part of me, baby  
Wherever you go  
You will always be a part of me  
Always

I'm sorry  
Give me one night of holding you close, baby  
Oh yeah (Always)
