

# Toni Braxton, In The Late Of Night

Always thought your promise was for life  
I did not think that I  
Would hear you say good-bye  
And I always heard you led another life  
I doubted every time  
I guess my love was blind  
Cause in my eyes  
Love was always something magical  
But the feeling is so tragical  
And all I know is in love  
The thing that I want most  
I can't possess  
There's only emptiness

In the late of night  
Just before I closed my eyes  
You lied  
As you kissed me goodnight  
In the late of night  
Just before I closed my eyes  
I cried  
As you kissed my lips good-bye

In my eyes  
You will always be the lucky one  
Cause you know you'll always have my love  
For all times until I die  
Through the end I gave to you my best  
You gave, you gave me loneliness

In the late of night  
Just before I closed my eyes  
You lied  
As you kissed me goodnight  
In the late of night  
Just before I closed my eyes  
I cried  
As you kissed my lips good-bye
