

Toni Braxton, Whatchu Need

Now what you need I got it
Hey yo Toni now what you need I got it
Darkchild now what you need you got it
Lets go

Let me tell you how it goes when I handle mines
You know who you with
No one else can cross the line
Your let it be known
I'm your girl that's why
There's no need to roam
You can just call me any time

Chorus:

What your looking for
You can find in me
All I want to do is spend sometime with you
All your fantasies will be reality
I'll be all that you dream
So come and be with me
And you'll see that
What you need
I've been waiting for you
So decide if you really want it
What you need
I've got more than enough
Believe it I've got it
What you need
I'll be available to you 24-7
What you need
I got all of me
Everything that you need
That you need 8x

Now that I've got your attention
Let me tell you how I feel
Ain't say this no more
Cause I'm laying it down for real
Ain't no need to go and cheat
There's no need to lie
Don't go wasting my time
Cause if your mine your all mine

Chorus

Look at me
Can't you see I've got what you need
If tonight is for real I'll give something to you too
Do you realize fantasize
What you want to do
Look around can't you see
I've got what you need
