

# Tony Carey, Wonderland

well there's ice out on the highway an hour before the dawn  
I guess the whole world's sleepin' and the miles just roll along  
I told myself I'd make it back as soon as I could  
and I hope you will be waiting there like you said you would

and you know we might have said some things we really didn't mean  
we tried to cut the strings cut 'em off clean  
I could see how much I hurt you when I packed it up and left  
but I saw it in your eyes you thought it might be for the best

and I feel so down and alone  
and I only want to come back home  
take my hand my baby  
tell me I'm still your man, my baby  
we'll walk along the sand, my baby  
it'll be like wonderland, my baby  
just like wonderland

I'm workin' hard to get you out of my mind  
I'll point this car somewhere and I'll drive away the time  
and I said hey now I'm free, but I knew that wasn't true  
every woman that I see would just remind me of you

and I feel so down and alone  
and I only want to come back home  
take my hand my baby  
tell me I'm still your man, my baby  
we'll walk along the sand, my baby  
it'll be like wonderland, my baby  
just like wonderland

why don't we see it when it's there all along  
we let a good thing go so wrong  
still want to love you babe as much as I can  
I want to hold you in my arms, show you wonderland

take my hand my baby  
tell me I'm still your man, my baby  
we'll walk along the sand, my baby  
it'll be like wonderland, my baby  
just like wonderland  
take my hand my baby (just like wonderland)  
tell me I'm still your man, my baby  
we'll walk along the sand, my baby  
it'll be like wonderland, my baby (just like wonderland)  
just like wonderland

oh yeah, just like wonderland...
