Garnet is long time we have something To tell the world you know

So it was in the beginning And a so it is straight unto the end Nothing is new under the sun So it was written So it must be done seen Ethiopian sons Step up Jah sons

Garnet Silk's Verse: We made a vow we promised We're gonna keep it We don't need your consent We're God's instrument I'm sure that we're fight So we devoted our lives To tell the world of the things we see And what is to be

Watch me now now From we a youth we no stop seek the truth Inna Jah army we get recruit No must a rebel that And me nah tell no lie, we no stop try Be the good sons of the most high 'Cause every man get a vision and have a mission But not everyone going make the tradition Some living illusion through position and possession That cause division and bad decision Stand haffi lake and we must draw the line Remember who you are don't forget 'bout time As you wake you feel the vibes And as you sleep you see the signs So make we go on spread the message to all mankind

Ai, yai, yai, yai, yai Make a joyful noise unto Jah Again Ethiopian sons

That decorated scene weh no stop attractive No stop invitation fi come over come live But through we mind done make up and we well positive We just a do weh we have to do and don't get discourage Because we mind a we thoughts and we works a we heart Is prepare 'cause we swear and we already start Are you really ready for this some people might ask But with the powers of Jah we can deal with the task Ai, yai, yai, yai, yai From we a youth we no stop seek the truth Inna Jah army we get recruit No must a Rebel that And me nah tell no lie, we no stop try Be the good sons of the most high No must a Rebel that We expect the unexpected and we know we get a fight But we know how it go when you start see Jah light But we going to continue to do what is right

Feed the people with the words who have the appetite I hear voices of people saying that we are strange But we still nah change, nah rearrange We shall be happy for the promise we keep 'Cause we know a weh you sow man, that you gwine reap Ai, yai, yai, yai, yai We won't change, won't rearrange We'll find a way to break the chains again
