

# Tony Vincent, Do You Really

have i ever tried to hurt you  
what have I ever done to make you fear your faith  
all i ever did was show you  
the kind of love that takes you all the way

do you really wanna live forever  
do you really wanna make this heart your home  
do you really wanna pass this dream along  
do you really wanna know the reason

can you identify this feeling  
that i am trying to wrap around you now  
i'm in the habit of forgiving  
so if you need me tell me to right now

do you really wanna live forever  
do you really wanna make this heart your home  
do you really wanna pass this dream along  
do you really wanna know the reason

you always know where you can find me  
you know that i will always love you

do you really wanna live forever  
do you really wanna make this heart your home  
do you really wanna pass this dream along  
do you really wanna know the reason
