

# Toploader, Higher State

Its a happy day for you and I  
the sun is up shining in the sky  
got a heart of gold I can see  
baby you got you. now you got me  
something's on don't be late  
It's time to leave for the higher state

there is no time to be low tomorrow  
there's only time to kill  
there is no time to be high and fly  
there's only time to thrill

so when i am up and you are down  
baby thats when you come around  
gotta ease my pain and soothe my brain  
gotta take me in out of this rain  
something's on so don't be late  
it's time to leave for the higher state

there is no rhyme to express my emotion  
there's only rhyme to feel  
there is no rhyme to fulfil my devotion  
there's only rhyme to heal

don't fret get high there's a new dawn that says hi  
the higher state

repeat

Its a happy day for you and I  
and the sun is up shining in the sky  
got a heart of gold I can see  
baby you got you. now you got me

it is no crime to be lost with no direction  
it's just a crime to not live  
and there is no crime to be asked for affection  
it's just a crime to not live

don't fret get high there's a new dawn that says hi  
the higher state
