

TOPS, Way To Be Loved

walking down the sidewalk
is that the way that you wanna be seen?
face that won't forget you
photographic memory
impression that you're drawn to
make it good
make it last
waiting for this moment for so long
ready for the dance

is that the way that you want to be loved?

ready with your story
funny guy
cartoon
always saying sorry
hold on, there's something you're gonna lose
the man who turns the lights on
the lover who never has to choose
the girl he's set his sights on
lacing up her shoes

is that the way that you are
I can picture you staring
out the window
not caring
the nights go by
oh the nights go by

is that the way that you wanna be loved?
I can picture you staring
out the window
not caring
the nights go by
oh the nights go by
is that the way that you are?
wear your hair down alone
tie it up when he's there
and tell me that nothing's wrong
