

# Tori Amos, Drive All Night

I got a spandex dress  
and it managed to fit  
hey now come an wreck it man  
I got a kid that calls the cops  
before the party's started  
that generation needs a lesson in sin  
now you're in my door  
you say you're runnin' on empty  
girl i sure could use a friend

But it's a long road that goes on and on  
and it drives and divides my flesh from your thorn  
and it's clear dear man  
I'm not sleeping anymore  
Congratulations as you lose control  
and do you still need a sign to let me drive  
'Cause I can drive all night  
said I can drive all night

you say you got a vampire in your head  
Love, you got one in your kitchen  
she's been stringing you out since we were kids  
a black hole that could swallow Jesus  
and if you want the girl in the blue velvet band  
she'll charm you into oblivion

'Cause it's a long road that goes on and on  
and then drives and divides my flesh from your thorn  
and it's clear dear man  
I'm not sleeping anymore  
Congratulations as you lose control  
Do you still need a sign to let me drive  
'Cause I can drive all night  
said I can drive all night

He said "Girl, maybe I can't play your hero  
in your last picture show... "

But I can drive up all night  
said I can drive all night  
said I can drive all night  
all night  
all night
