

# Tori Amos, Promise

Promise not to say

That you told me so  
Promise not to say

That I'm getting too old

Promise not to take

Never take your phone

I mean take their word

You mean over yours?  
What I need to know, will you

Be there

Where the sun shines

I will be there

You are the light

That follows you everywhere

Look for my love

Where the sun shines  
I will be there

Will you

Promise not to judge

To judge who you love  
I don't know if I...

Yes, make that Promise

Whatever it is

Can you hear the truth  
If they accuse me

You think I'll doubt you?  
what I need to know, will you

Be there  
When I am all alone

You're not alone

When I am broken down

We all break down

When every door is closed

There is one more

Will you look for me?  
I will rescue you
