

# Tori Amos, Strange

strange  
Thought I knew you well  
Thought I had read the sky  
Thought I had read a change  
in your eyes  
so strange  
Woke up to a world  
that I am not a part  
except when I can play  
its stranger  
After all  
what were you really  
looking for  
and I wonder  
when will I learn  
Blue isn't red  
everybody knows this  
and I wonder  
when will I learn  
when will I learn  
guess I was in Deeper than  
I thought I was  
if I have enough love  
for the both of us  
"just stay" you said  
"we'll build a nest"  
so I left my Life  
Tried on your friends  
Tried on your opinions  
So when the Bridges froze  
and you did not come home  
I put our snowflake under a microscope  
After all  
what was I really  
looking for  
and I wonder  
when will I learn  
Maybe my wish knew better  
than I did  
and I wonder  
when will I learn  
when will I learn  
guess I was in Deeper than  
I thought I was  
if I have enough love  
for the both of us  
so strange  
now I'm finally in  
the Party has begun  
it's not like I can't  
feel you still  
but strange  
what I will leave behind  
you call me one more time  
but now I must be leaving
