

# Tori Amos, Teenage Hustling

You think you can come around here  
All up in his face  
All up in my world

You better know you better know you better know  
I'm at your door I'm at your door I'm at your door  
You better know you better know you better know  
I'm at your door I'm at your door I'm at your

You gotta right you gotta right to know  
You gotta right you gotta right to know  
Me and my teenage hustling

I've been workin' it  
Since I's fourteen  
Me and my teenage hustling  
It's gonna save me  
Save me save me save me save me save me  
From your dirty dealings  
You're a dirty girl  
You're such a dirty girl

You better know you better know you better know  
I'm at your door I'm at your door I'm at your door  
You better know you better know you better know  
I'm at your door I'm at your door I'm at your

Maybe the riddle of this accident  
Goes back to your gossip  
With a ferocious strategy  
You play wounded in his cockpit  
But I think that you forgot my days  
Of teenage hustling  
You better know you better know you better know  
I'm at your door I'm at your door I'm at your door  
You better know you better know you better know  
I'm at your door I'm at your door I'm at your

You gotta right you gotta right to know  
You gotta right you gotta right to know  
You gotta right you gotta right to know

Me and my teenage hustling  
I've been workin' it  
Since I's fourteen  
Me and my teenage hustling  
I've been workin' it  
Since I's fourteen

But you been skankin' around  
With your talentless trash  
You only shoot blanks  
At your cocksure best  
Me and my teenage hustling  
Me and my teenage hustling

It's gonna save me  
Save me save me save me save me save me  
From your dirty dealings  
Now I don't mind a dirty girl  
I don't mind a dirty girl

You better know you better know you better know  
I'm at your door I'm at your door I'm at your door

You better know you better know you better know  
I'm at your door I'm at your door I'm at your door
