

Torture, Ignominious Slaughter

Staring into blackness
Waiting for my prey
Screamin' from the cellar
Souls will die today
Frothing from my living hell
Rotting from decay
Your death is here
Your god has come to take it all away
You see me in your sight
Bloody corpse tonight
I see you run in fear
Cause this time you watch
Ignominious, ignominious slaughter
Prowling through the darkened town
Stalking from the grave
My victims wake a gory death
Their pieces that I save
Never look behind you
Just pray that you die fast
The waves of blood shall cleanse the walls
This time you will not last
You see me in your sight
Bloody corpse tonight
I see you run in fear
Cause this time you watch
Ignominious, ignominious slaughter
Vicious, brutal nightmare
Seeping through the womb
Forceful thrashing vengeance
I now command your doom
My mind is my asylum
Embedded ripping flame
The legions of the morbid
Come to play my game
I will slaughter you
Buried in the ashes
Beneath the icy snow
Forbidden in the shadows
The fires wait below
I've risen from the evil
Been scalded from the war
And I'll show all mercy no more
Perform the sacred ritual
Among the mangled dead
Attaching bloody ligaments
Below the virgin's head
Sacrifice beneath the cross
Intestinal bouquet
Behold the wretched masterpiece
Dismembered art display
You see me in your sight
Bloody corpse tonight
I see you run in fear
Cause this time you watch
Ignominious, ignominious slaughter
