

Tosteer, When they say

When they say we will follow you
Every day of your lonely life
When they say we will stand by you
Just one day you may find them lie
When they say put your trust on us
We'll take care of the things you own
When they say give upon you dreams
We'll become all the things you want
All they say is no longer thing to believe
All they say is nothing that you can receive
All they say
All they say
When you say I'm the winning one
Just be sure that defeat is close
When you say I will never stop
Soul is no longer thing of yours
When they say we will follow you
Every day of your lonely life
When they say we will stand by you
Just one day you may find them lie
All they say is no longer thing to believe
All they say is nothing that you can receive
All they say
All they say
All they say is no longer thing to believe
All they say is nothing that you can receive
All they say
All they say
