

Toto, How Does It Feel

Morning's here
I feel so far away
It seems like I felt this before
All alone
Sun burns my skin
I can't live with pain anymore
And with you on my mind
Thinking of all that we've said
Were they just words
We'll live to regret
Why won't you stay?

[Chorus:]
How does it feel
To make me fall apart
Could this be love
Or just a broken heart
How do you feel
When you see me cryin' again

Times have changed
Is love at an end?
What makes us wonder why?
Rearranged
Just pretend
I can't stand the thought of goodbyes
And with you on my mind
Thinking of all that we've said
Were they just words
We'll live to regret
Why won't you stay?

[Repeat chorus]

[Instrumental break]

[Repeat chorus]
