

# Toto, Simple Life

Days feel so long  
My life seems short as years go by  
The chance that I took  
A feeling so strong I had to try  
All of the pain I left behind  
Been down the road  
My heart has been sold  
The price was steep  
The world that we have  
The wish that we made is ours to keep  
All our emotions are so deep  
'Cause I can't stop falling in love with you

All I want is the simple life  
All I really want is you  
All I want,  
All I need is a simple life
