

# Tracie Spencer, This House

Where do we go from here?  
What must we do to make that change?  
It's time to understand, understand one another

In a world so cold a place of disbelief  
Where will the people go without enough to eat  
Let's not give up hope  
We have to find a way  
Search within our soul to make a better day

Chorus:  
This house is our house  
Let's do it for the people  
This house is their house  
Let's give it back to the people  
The people of the world today

I see hurt in their eyes  
I hear the sounds of voices cry  
It's time to open our eyes  
Time to help one another

In a world so cold a place of disbelief  
Where can the people go to find a place to sleep  
Let's not give up hope we have to find a way  
Search within our soul to make a better day

Chorus

Bridge:  
You-Me-We can make the difference  
And you know no one, no one likes to be alone  
We got to face it heart to heart  
We have to make a brand new start  
We got to change the tears to smiles  
We have to go the extra mile

(you-me) It's time we face reality  
(We can make the difference)  
Give them hope and set them free  
I think it's time we say goodbye  
To all the homeless people's cry

Rap:  
We've got to take the time to search the mind to find

This house, our house  
(It's all in the hands of love)  
(I said it's all in the hands of love)

Chorus
