

# Tracy Bonham, Brain Crack

Have you ever heard the sound  
Of your head in the ground  
And you're afraid to say  
And it won't go away  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
Have you ever heard the sound  
Of your head on the ground  
And you're afraid to say  
And it won't go away  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
That's the sound of your brain cracking  
That's the sound of your brain cracking
