

Tracy Bonham, You Can't Always Not Get What You

You say you knew Jackie Onassis
When she was an actress
You say you knew Buffalo Bill
Before he could kill
You've got your head twisted 'round the back
So you can't see
My life colliding with your life
And you say you know me
But you don't know me
You don't know me
And in no way am I a mystery
Just hang a bell around my neck
And call me ol' bessie Yeah take that cattle prod back
Before I see red
You've got your neck twisted 'round the back
So you can't see
My horns colliding with your ass
'cause you think you own me
But you don't know me
You don't know me
And in no way am I a mystery
You don't know me
You don't know me
And your thickness is hard to believe
