

Tracy Byrd, You Feel Good

I like sleepin in the nude
When it's hot and the moon is full
I like a little ice in my drink
And the sound when it clinks that's cool
But when I need maximum sensation
I turn to you
Cuz...

You feel good
Baby, you feel good

I like a little itch on my neck
When a song won't let me go
I like the shower beating down
Steam rising all around like smoke
But when I wanna feel a rush
That goes a little deeper
I turn to you
And...

You feel good
Baby, you feel good

I like the velvet of your skin
When I'm holdin you in my arms
And I like the way that we connect
The way that you caress my heart
And every time I need love and understanding
I turn to you
Cuz...

You feel good
Baby, you feel good
Baby, you feel good

ooh oh yea
you feel good

Like I wanna shout
I wanna cry
I wanna make you feel exactly what I feel inside

(fades out)
