

# Tracy Lawrence, God Made Woman On A Good Day

The sun smiled down all the clouds rolled away  
God made woman on a good day

[ guitar ]

Legs long legs atretchin' all the way up from the ground to her thin waist  
She looks so fine walkin' this way God made woman on a good day  
Hips feminine hips she's got silky hair sexy eyes soft pink lips  
A seein' all of that all that I can say is God made woman on a good day  
Some like to cook some like to dance but every one of them likes a little romance  
He made 'em all great in different ways something for a boy to appreciate

She's got sense got common sense

Like a bee handles honey she saves that money before it's all spent  
Now there goes the reason that the bills get paid God made woman on a good day

Some like to cook some like to dance...

Oh God made woman on a good day

[ guitar ]

Might have been a Monday Tuesday I don't know  
Could have been a Saturday night  
From her toes to her head whe he finished he said  
God made woman on a good day
