

# Tracy Lawrence, I See It Now

It's good to see your face again it's been a while  
How'm I doin' well I get by somehow  
You sure look good since your new love came in your life  
You know I didn't see that fire in you he's found  
Oh but I can see it now  
Oh I never saw that look in your eyes  
And I never had you hold me that tight  
And I never saw you dance with your feet off the ground  
Oh but I see it now  
[ fiddle ]  
Holding him you never looked more beautiful  
Lettin' go has been so hard on me  
And sittin' here it's clear to see what he means to you  
The way you look at him it ain't no mystery  
He's all I couldn't be  
Oh I never saw that look in your eyes...  
[ guitar ]  
I never saw you dance with your feet off the ground  
Oh but I see it now
