

# Tracy Lawrence, Steps

Little baby boy sittin' round his toys gettin' tired of crawling  
He's pullin' up on an easy chair he's gonna try a little walking  
He's takin' steps

A six year old with a new school bag staring down his drive  
Holdin' on to his mama's hand he's going on his first bus ride  
He's takin' steps

A teenage boy in a rented tux reaching out a trembling hand  
To a pretty young girl in a satin dress asking her to dance  
Steps some big some small puttin' one foot after the other  
Steps the trick to it all is diggin' down to find a little courage  
And it's okay to be afraid aou gotta have faith life's all about steps

For twenty-two years she stood by a man who did her wrong  
With a packed suitcase and a Greyhound ticket she's finally gone  
She's takin' steps  
At a meeting downtown a tired old drunk stands and says his name  
That leaves him eleven to go and he can already feel the change  
He's takin' steps  
Somewhere a great grandpa says I'm ready to go  
Peacefully drifts off to sleep wakes up on streets of gold  
Steps some big some small...  
Steps some big some small...
