

# Trademark, Miss You Finally

But I miss you finally  
But I miss you finally  
Try to remember all these years  
We shared the love we shared the tears  
Thought that forever it would be  
I realize you lie to me  
I still hold on  
Still dream of days when we were one

Chorus :  
You played with my heart  
You played with my mind  
But I miss you finally  
Right from the start  
My love made me blind  
But I miss you finally  
All of these promises you made  
This 4 letter word it seems to

Baby it's hard to understand  
Now that you're gone  
We reached the end  
I still believe  
Still dream of days when we were one

(Chorus) x 3

You played with my heart  
You played with my mind  
Right from the start  
My love made me blind
