

# Traffic, Riding High

Don't be afraid, love, when the storm comes  
We're gonna make it through on our own  
Don't you, don't you ever let go of my love  
Think about it, if you believe then it will be

We'll be riding high and we won't look down  
See our spirits flying to that higher ground

Over and over, oh, the storm raged  
I held you in my arms to keep you warm  
No, you, no, you never let go of my love  
Through the darkness you were the light that shone on me

Now we're Riding High yeah and we don't look down with our spirits flying to the higher ground

Every step I took, through everything I've done

When the lightning struck you were the only one  
you were the only one  
you were the only one  
oh  
No you  
no you never let go of my love  
through the darkness  
you are the light that shines on me

Now we're riding high yeah  
and we don't look down with our spirits flying to that higher ground  
we're riding high yeah  
and we don't look down with our spirits flying to that higher ground we're riding high yeah  
and we don't look down with our spirits flying to that higher ground  
(repeat chorus)
