

Train, All I Ever Wanted

You were my ticket outta here
And I was your dream come true
You gave me everything I ever wanted
Except for you

I convinced my self that over don't mean over
And I convinced myself that I could fix it all
Two dreams collided maybe we got too excited for our own good

No more - hold on we can make it
No more holding each other while the words all break it
Move on you know we'll be stronger in the end

Now I convinced myself that nothing could ever tear me away
And I convinced myself that we'd look back and laugh at this one day
Two lives collidin' baby
We got too excited for our own good

No more - hold on we can make it
No more holding our breath while the truth all breaks it
Move on ya know we'll be stronger in the end

Hey wait hey don't you know that this is there is where the whole thing went wrong
Hey wait hey don't you wanna hear what I have to say
Hey wait hey don't you know that this is where the strong go on

And all I ever wanted
All I ever wanted
All I ever wanted
Was you

No more - hold on we can make it
No more holding each other while the world tries to break us
Move on ya know we'll be stronger in the end

Hey wait hey don't you know that this is there is where the whole thing went wrong
Hey wait hey don't you wanna hear what I have to say
Hey wait hey don't you know this is where the strong will go on

And all I ever wanted
All I ever wanted
All I ever wanted
Was you
