

Transmatic, Need To Know

You need to know...that photographs are always cold
And in the end...I just wanted to feel better
Cause I'm not...when's this gonna stop

(CHORUS)

make me break down...I've waited this long so let me out
Left but you linger and it's all wrong
Cause it's what you want from me.

And everybody is talking to me...I'm still not quite the same
And I'm thinkin'...why'd I even take the chance outlast
Would you do it? Do it for me?
And I swear...I only hoped that you'll feel better.
Cause you're not...when's this gonna stop

CHORUS

Said I'm ready but I'm not...you were here now you're gone
You need to know...that photographs are always cold
And in the end...I just wanted to feel better
Cause I'm not...when's this gonna stop

CHORUS
