

Trauma, Imperfect Like A God

Conquer in the name of god
Human psycho in the mask of god
Extermination - our law
So we conquer, so we kill - our law
Unperfect
Unperfect like a god
Unperfect
Unperfect like a god
Nobody in this world
Knows everything about the dream
Revelation - our war
The perfect resolution - our law
The shame and misery
Flowing through the mouth of god
Condemnation - our destiny
Proud and free with this gift
The worst nightmare
Rising of the hidden beasts
Recreation - our aim
We know down social law
In the deepest dream
All the reasonable travelers believe in
Reconstruction - our hope
So we fall and rise again - our hope
Unperfect
Unperfect like a god
Unperfect
Unperfect like a god
