## Travis, Luv

What's so wrong? Why the face so long? Is it over? And where you going that you no longer belong here? And distance tells you that distance must come between love Where have you been, Luv? When the mistake we made Was in never having planned to fall to fall in love, Luv

Singing this song Singing along Makes it easier for me to see you go But in doing so In letting you go It only serves to show me that I'm still in love with you

So what's so wrong? Why the face so long? Are you changing? And where you been to that you no longer remember? And distance tells you that distance must come between love Where have you been, Luv? When the mistake we made Was in never having planned to fall to fall in love, Luv

It's just the chance we took Having never ever planned to fall in love, Luv It's just the chance we took Having never ever planned to fall in love, Luv Luv
