

# Travis Tritt, (I Wanna) Feel Too Much

(I Wanna) Feel Too Much

I wanna standup on a mountain  
I wanna run naked in the rain; feel it soak my skin  
Take a trip without even thinking about the destination  
I wanna jump into an ocean  
I wanna dive into an open in the sky  
Go too far; go a little crazy  
Go a little over the night

I wanna drink in every moment  
I wanna take in everything

I wanna feel too much  
I wanna live too much  
I wanna love too much  
So much that it hurts  
I wanna feel everything  
I wanna taste everything in this life  
I wanna feel too much

I wanna recklessly love someone  
Throw down my heart and throw all caution to the wind  
Even if there's a chance that...my heart could get broken

I wanna drink in every feeling  
I wanna love with everything

I wanna feel too much  
I wanna live too much  
I wanna love too much

So much that it hurts  
I wanna feel everything  
I wanna taste everything in this life  
I wanna feel too much  
And be...

Be fearless  
Every chance I can tight

That night on the wheel  
Don't care if I fall  
I wanna feel it all

I wanna feel too much  
I wanna live too much  
I wanna love too much  
So much that it hurts  
I wanna feel everything  
I wanna taste everything in this life  
I wanna feel too much  
I wanna live too much  
I wanna love too much  
So much that it hurts  
I wanna feel everything  
I wanna taste everything in this life  
I wanna feel too much  
I wanna feel too much  
(Live too much)  
(Love too much)  
So much that it hurts  
I wanna feel too much
