

# Travis Tritt, Worth Every Mile

Written by Travis Tritt  
The roads that we've traveled  
Ain't always been easy  
Lord knows we've both seen our share  
Of troubles and trials  
It's hard to believe  
We made it so far together  
But just between you and me darling  
It was worth every mile

Chorus:

It was worth every storm  
We had to weather  
It was worth all the evenings  
We cried together  
When the going got toughest  
I could count on your smile  
And looking back now I can say  
It was worth every mile  
I know you and I both had our doubts  
That we'd make it  
But deep in the back of our minds  
We knew all along  
That love's not for quitters  
So we kept ours moving  
Oh and I think you'll have to agree  
It was worth every mile

Chorus

And looking back now I can say  
It was worth every mile
