

Travis, Walking Down The Hill

Walking down this hill tonight
I had a thought all to myself
As I contemplated the moonlight

We got it all, we got it made
I don't know how I got here
But I'm holding on for the crash

Pull myself out of the moon
I know I'll never go there but
It's shining down from up on high
We got it made, we got it made
I don't know what we gotta make
Sooner or later we die

We're apart, go to pieces
While I go to sleep

Look into my heart, oh baby
Don't become a part of the past
You can be a part of the key

Don't turn away, don't run away
Don't leave me hanging by a thread
Shine a little love down on me

We're in love, make your peace
Wasting time's all you need

Walking down this hill tonight
I had a thought it was my own
Moon swept by the clouds
and save the starlight
Or shall I be or shall I not be
I don't know I just don't
Feel like kids in night
