Travis, Walking Down The Hill

Walking down this hill tonight I had a thought all to myself As I contemplated the moonlight

We got it all, we got it made I don't know how I got here But I'm holding on for the crash

Pull myself out of the moon I know I'll never go there but It's shining down from up on high We got it made, we got it made I don't know what we gotta make Sooner or later we die

We're apart, go to pieces While I go to sleep

Look into my heart, oh baby Don't become a part of the past You can be a part of the key

Don't turn away, don't run away Don't leave me hanging by a thread Shine a little love down on me

We're in love, make your peace Wasting time's all you need

Walking down this hill tonight I had a thought it was my own Moon swept by the clouds and save the starlight Or shall I be or shall I not be I don't know I just don't Feel like kids in night
