

Treaty Of Paris, Personal Self-Help Program

Have you ever been in love so much
It makes you feel like throwing up
When it didn't all work out
What can you do about it now?

Have you ever felt so out of touch

Dry up and left you numb
Don't let it get you down

(Chorus)
Gotta keep your head above it
keep your head above it
keep your head above it
Got a long way to go

Have you ever worked for something so bad
Someone said you'll never have
And would you let them hold you back?
Would you do the best you can?
(Yeah)

(Chorus 2x)
Gotta keep your head above it
keep your head above it
keep your head above it
Got a long way to go

Keep your head above it
Suck it in a learn to swim
Keep your head above it
Suck it in a learn to swim

(Chorus 2x)
Gotta keep your head above it
keep your head above it
keep your head above it
Got a long way to go
