

Treble Charger, Hole In Your Head

what's that poking underneath your shirt
whats that mirror in what you call dirt
why dont you just tell me where it hurts
not that i can help you

nothing here can save you
but you don't wanna go home
is there nothing that escapes through
the hole in your head

on the table is your only friend
want to be together in the end
one less problem that you'll have to send
to no one else except you

nothing here can save you
but you dont wanna go home
is there nothing that escapes through
the hole in your head

i dont like you (x4)

nothing here can save you
but you dont wanna go home
is there nothing that escapes through
the hole in your head (x2)

don't want it
don't need it
don't wanna help
