

# Treble Charger, Hundred Million

Take a step off your soapbox and see  
What it's like on the ground  
Set your ego in detox, maybe  
Cause you're becoming unwound  
And it's killing me

Everyone complains about you  
They don't even know what I've been through  
I don't have the pain to doubt you  
I just wanna throw you to the crowd

Ask them if you want  
I'll tell you what they say  
A hundred million people  
Voting my way now  
Everything is wrong  
With everything you say  
A hundred million people  
See it my way

Go ahead play the hero this time  
If you have any spine  
I'm at tolerant zero today  
You can say anything to make me stay

Everything that's happened to me  
I'm losing faith in everything I see  
Waiting for the walls to break free  
I'm listening but I can't hear a sound

Ask them if you want  
I'll tell you what they say  
A hundred million people  
Voting my way now  
Everything is wrong  
With everything you say  
A hundred million people  
See it my way

She'll learn some day  
She'll see my way  
Don't be afraid  
Just go my way

Ask them if you want  
I'll tell you what they say  
A hundred million people  
Voting my way now  
Everything is wrong  
With everything you say  
A hundred million people  
See it my way  
A hundred million people  
See it my way, now  
A hundred million people  
Votin' my way, now  
A hundred million people  
See it my way
