

Trees, Badge 118

Passing out in parking lots
living low sweating tents
waking up passing out
completely f**king spent
Living low because I'll chance
Living low but I made a thousand dance
Beat me down in the cell but I won't break
Beat me down in the cell but I won't break
I learned not to make the same mistakes
Beat me down in the cell but I won't break
No I won't break I won't break no
Got you in my rear view
pull me over flashing blues
ask me for some honesty
use it to arrest me
Living low because I'll chance
Living low but I made a thousand dance
Beat me down in the cell but I won't break
Beat me down in the cell but I won't break
They can chase me from state to state to state
Beat me down in the cell but I won't break
I won't break I won't
Try to crush my spirit
Can't even get near it
NO I won't break I won't break NO
