

# Trey Songz, Long Gone Missin'

[Verse - Rap]

The Prince is back!

May Day, Trey Day

[Rap]

So here we go with this again

Running at them lips again

Yellin' in my ear and shit

All I hear is whisperin

No matter what it is

She always start to bitchin' and

trippin and

I almost start to call that girl a bitch again

So I blaze out the house

In a rage out the house

Shawty got a sharp tongue

she spit blades out her mouth

I throw my stunnas on

I chop blades out the house

She get ta growlin and I'm out

It's like a cage in the house

Phone on silent and I'm wilin' cuz I'm 'bout

Five shots of Henny in

Man, I'm makin' plenty friends

Black, White, Dominican

Back right, I break it in

(This is the act right)

I need to take it in

Let's Go!

[Verse - singing]

I been drinkin

Tryna take my mind up off all the yellin and all the screamin

But all that it's doin is takin me far from your lovin

Got this girl in my ear, tellin me what I don't need to hear

Sippin' what I'm sippin and she bout to catch me slippin'

[Chorus]

I'm long gone missin,

long gone missin

and I'm up in this club with all of these women

This one she said she wanna get me alone

You bad as hell, but girl I gotta go home

I'm long gone missin, long gone missin

and I'm up in this club with all of these women

This one she said she wanna get me alone.

You bad as hell, but girl I gotta go home.

[Verse]

Now she's grindin

And the way she poppin' that thang

droppin that thang

reminds me

it ain't a girl in this world like mines

Wish she come find me

(hope you hurry up)

It's gettin heated up

(got me heated up)

If she keep it up

we gon' be leavin here

(I'm sippin)

Sippin what I'm sippin and she bout to catch me slippin

[Chorus]

I'm long gone missin,

long gone missin

and I'm up in this club with all of these women

This one she said she wanna get me alone

You bad as hell, but girl I gotta go home

I'm long gone missin, long gone missin  
and I'm up in this club with all of these women  
This one she said she wanna get me alone.  
You bad as hell, but girl I gotta go home.  
[Bridge]  
Now I look around  
and all I see is cuties,  
booties bouncin all around.  
I'm tryna keep my self from goin' down  
With all the love I give you all you ever do is frown  
Sippin what I'm sippin and she bout to catch me slippin  
[Chorus x2]  
I'm long gone missin,  
long gone missin  
and I'm up in this club with all of these women  
This one she said she wanna get me alone  
You bad as hell, but girl I gotta go home  
I'm long gone missin, long gone missin  
and I'm up in this club with all of these women  
This one she said she wanna get me alone.  
You bad as hell, but girl I gotta go home.
