

Trial Kennedy, Damage On Parade

Everything was only ever your way
Taken for granted is all that you know
Oh Oh
Cave into peers succumb your life away
Open arms again
Cave into peers don't let them walk away

Like damage on parade
You know it's all been said today
Like damage in control
And now I've worried everyone, I know

Light my life
Light my time

Everything was only ever your parade
Balling and dressing me call me alone
Oh Oh
Get in and sail across the water way
Open run again

Like damage on parade
You know it's all been said today
Like damage in control
And now I've worried everyone, I know

Light my life
Light my time

Light my life
Light my time
Light my life
Light my time

Like damage on parade
You know it's all been said today
Like damage in control
And now I've worried everyone, I know

Light my life
Light my time

Light my life
Light my time

Get off my back (Get off my back)
Get back on track (Get back on track)
Get off my back again

Get off my back
Get back on track
Get off my back
Get back on track
Get off my back again
