

# Tribe, I Can't Stop Thinking About You.

You lift me up you bring me down  
I twist and turn you spin me round  
Oh-oh, you got me

You take me high when I am low  
You give me space and room to grow  
Oh-oh, you got me

I just can't  
Stop thinking about you  
The things you say  
The things you do  
As long as I live  
I'll be there for you  
I've no doubt  
Cos our love is true

You hold me near when I'm away  
And every night and every day  
Oh-oh, I want you

I just can't  
stop thinking about you  
The things you say and the things you do  
As long as I live I'll be there for you  
I've no doubt cos our love is true

You give me a reason to survive  
You wake me up I feel alive  
Oh-oh you got me

I can't sit still can't concentrate  
I need you now, I just can't wait  
Oh-oh you get me

I just can't  
Stop thinking about you  
The things you say and the things you do  
As long as I live I'll be there for you  
I've no doubt cos our love is true
