Trick Daddy, Tonight

(feat. Jaheim, Trina)

[Intro: Trick Daddy]
You lookin' real good baby
I just want you to know
I had a wonderful time this evening
But unfortunately
I guess this part of the story
Well we tell each other goodnight
Nah how about this
How about I break all the rules
And tell you what I really been thinkin'

[Chorus: Jaheim]
Girl you gotta big ol' ass
and bow legs and fine hair
And all the shit that I want
Sexy motherfucker
You acting like you want it right now
Let a nigga know
Is we gun fuck tonight
My dick is gettin' rock hard
Oh my god
There's gonna be some fuckin' tonight
Take your panties off
And pull them things off to the side
And let a nigga know
Is we gun fuck tonight

[Verse 1: Trick Daddy] See good pussy Will bring the freak out ya But if you eat it and don't get cheated The first off I beat the breaks off her No sense in half-steppin' Get serious Get the titties suckin' like Clit rubbin' and ass grabbin' I eat that pussy ass backwards A few strokes of this long warm tongue Should make the pussy cum So much for round one I spend a whole round two and back again Stick in move Stick in move

[Chorus: Jaheim]

[Verse 2: Trina]
I need a real man
I'm sick of playin' with lil' boys
I'm tryin' to explore more like hot oils and sex toys
I can't keep fakin'
Man I'm so backed up and
I can't eat I can't sleep
My knees weak makin' me keep shakin'
I need a real nigga to come save me
One who pamper me and bathe me
And make me wanna swallow his baby
Talkin' thug shit like fuck me crazy
From the back or in the butt
I'm like fuck me baby fuck me baby

[Chorus: Jaheim]

[Verse 3: Trick Daddy] All the matter is I can get you wet again Suck you fuck you better than Any other nigga can I specialize in multi orgasms Gettin' rid of back spasms And do it all without Viagra I'll fuck you all night Make you sleep all day Treat you to breakfast then Eat you for breakfast I know baby I'm so unselfish But you're lovin' it besides I'm a freak so I can't help it All I need is old slow songs One cold shot of patron See you walkin' around me in a thong And it'll be over before the chorus come back on You'll be leaving and I'll be ab libin' And we'll be singin' our damn song It's like the first time we made each other cum We'll be suckin' and fuck each other Taste each other cum No soul alive can erase what we done All our horny sticky memories you are stuck to me permanently

[Chorus: Jaheim]
